

Let's Build a Liberty Ship

Color your section of the ship to match the color key below. Then label each compartment in your section of the ship. When you are done labeling your section, cut the section out and connect it to your teammates' sections with tape. Then take the ship and trace the outline of the ship onto posterboard. Paint the ship, come up with a name for the ship, and write the name of the ship on the bow (front of the ship).

Color Key

Miscellaneous Machinery Spaces= Green
 Command and Control=Yellow
 Liquid Stores= Orange
 Dry Cargo Spaces= Light Blue

Engine Room= Dark blue
 Miscellaneous Spaces= Gray
 Dry Stores= Light Green
